

COVID 19 - SAFE SEX

COVID-19 Prevention and safety measures for sex work

To avoid contamination with COVID-19, we recommend that you observe the following protective measures. Checks can be carried out:

- **In case of symptoms*, do not work**, stay at home and get tested.
- **Avoid paid sex with a client with symptoms*** and vice versa, avoid paid sex with a sex worker who has symptoms*.
- **Wash your hands** before and after each performance with soap and water or hydroalcoholic gel.
- **Take a shower** before and after if possible.
- **Use condoms** for all sexual practices.
- **Ventilate** the room, **change** sheets and towels.
- Clean **accessories** between each client.
- **Regularly disinfect** surfaces (door handles, doorbells, tables, etc.) and remove unnecessary objects that customers may touch (magazines, etc.).
- Have a **rubbish bin** available, if possible closed, to dispose of used masks, tissues, condoms etc. and empty it at least once a day.
- Apart from the services, **maintain a distance of 1.5 meter** between each person or **wear a mask** if this is not possible.
- **Do not accept trios or +.**
- In order to be notified in case of infection, keep a list with the date, time and **telephone numbers of the clients** and give them **your professional number**.
- **In case of symptoms***, contact a doctor, or Aspasia by phone OR make an appointment at a sampling centre *

*** Symptoms:**
